HUNS RUIN HER HOUSE BUT CAN'T DAMPEN HER SPIRITS

BRITISH OFFICIAL PHOTO BY UNDERWOOD

All that Huns left of one house.

A German shell exploded near this house back of the western front and the explosion caved in the walls so that the building collapsed and the roof fell to a level

of the street. A British soldier is talking to the woman who lives in the house. Notice the smile on her face. The ruin wrought hasn't crushed her spirit. She has seen

the allied troops as they have passed in their counter drive against the Germans and knows they are on the road to wipe out the kaiser's crew.

PATRIOTIC YOUNG WOMEN RESPOND

Hammond Has Ten Applicants for Student Nurse Reserve Drive.

(Special To The Times.)
CROWN POINT, IND., July 30.—Mrs. Jennie Ward Wheeler, who has charge of the Student Nurse Reserve drive is very much pleased at the number of young women who have filed applications with her to enroll in this profitable branch of the government service.

Ten patriotic young women from Hammond have written Mrs. Wheeler stating their desire to enter this work; two from Whiting, two from Indiana Harbor, two from East Chicago, five from Crown Point and one from Lowell.

Lake county's quota is twenty, but owing to many counties not being able to furnish this number of women the state chairman, Mrs. Arthur B. Grover, has urged Mrs. Wheeler to try and double her quota or furnish as many more as possible as the shortage is so acute. Impress upon the women that by enlisting at hospital at this time they are serving their country as well as themselves, during the period of training they are releasing a graduate nurse for our injured men. And when they have completed their course they are fitted to earn a better salary than they could in any other profession, and in practically every other profession the student pays all her expenses, including clothing, text books, board, lodging, etc. The government has put the age at 19 to 35.

"M. P." IS TRAFFIC COP OF THE ARMY

(By FRANK J. TAYLOR, United Press Staff Correspondent.)
WITH THE AMERICAN ARMY IN FRANCE, July 2.—They're the traffic cops of the army, and darned good ones too. There'll be no scarcity of traffic cops in America when the M. P.'s get back.

The office was alluding to the military police, the organization that keeps order in the army, prevents congestion on the roads, and does the work that other departments of the army do not do. The military police have taken an important place behind the lines.

The military police is a distinct organization and is made up of picked men from various military units. As soon as a unit arrives in France "the M. P." are organized from it and for it. They are always known as "M. P." in the army.

"Until he gets up to the front and sees things, the average man does not realize that there is as much traffic through some battered little town behind the lines as there is on Broadway, New York or Market street, San Francisco, at least during certain hours. So the "M. P." has a big job on his hands as traffic cop. Often there are two streams of traffic, and he has a double job, to prevent congestion.

Usually there is an "M. P." at every cross road, to examine passes, and see that the people who do not belong near the front never get there. When you enter a division's area you are always met by an "M. P." who looks over your credentials, and gives you information about roads, dangers, and see that you have your gas mask ready before you go in the "gas alert zone."

The "M. P." are made up of the best men in the army, and they have a lot of authority. What is more, they know it—which makes them a little disliked by the ordinary "doughboys." But everyone agrees the army couldn't run without the "M. P."

February 41.98 9
March 144.73 22
April 162.62 22
May 217.06 27
June 492.52 43

The above report showing the amount of money spent and families assisted through the home service department of the Gary Chapter of the American Red Cross indicates the large and growing service rendered to the families of our soldiers and sailors.

Sam Gary.
Miss A. P. Melton, secretary of the home service department, has her office at the National Bank of America and is rendering large service in assisting the families of our men under the colors. Not all of the families served receive money payments and in some instances families are assisted through small loans that are later returned to the fund. Of the total amount expended during the month of June about \$230 represents small loans to be returned.

The June report of Mrs. Melton shows forty families assisted, of which number thirteen received money relief, four hospital assistance, twenty information, and three cases represent letters of encouragement to men in the service. The July report shows the first baby born in Gary with its father in service. Mrs. Melton represents the Red Cross contributors in the expression of the Good Samaritan spirit and through her careful supervision the department of home service is a growing blessing to the needy soldiers and sailors families in the steel city.

Copper Securities

In a recent issue of "Copper Curb and Mining Outlook" the headlines of an article concerning the Inspiration Copper Company told a wonderful story. These headlines stated: "Inspiration now among the giants. From nothing to 12,000,000 pounds of copper monthly in a period of 14 months—earnings in first two years of existence estimated at \$40.00 per share." About the same time the reliable Mining and Engineering World, in writing of the Inspiration, stated as follows: "The company is producing copper at the rate of almost 12,000,000 lbs. of copper per month—yet 14 months ago it had but entered the producing field.
